SKILLS

Driven and adaptable professional pursuing my dream career as a SOC Analyst. I bring a strong foundation in cybersecurity principles and hands-on practice with tools such as SIEM platforms and EDR solutions, paired with knowledge of incident response, vulnerability scans, and NIST security guidelines. I am eager to apply my skills to real-world environments, from analyzing alerts and supporting phishing awareness campaigns to contributing to the overall security posture of an organization. Bilingual in English and Spanish, I combine determination, adaptability, and a passion for learning to quickly grow into a valuable member of any security operations team.

CERTIFICATIONS

CompTIA Security +

Microsoft Azure Fundamental (ets.Nov 2025)

Security Analyst Level 1 - TryHackMe

Splunk Core Certified User (est. Sept. 2025)
